Semester & Year:

Course:

Textbook Used:

---

**Instructions**

**NACEP Standard Curriculum 2 and 3 (C2, C3):** University courses administered through CEP reflect the pedagogical, theoretical and philosophical orientation of the university, the college, and the sponsoring academic department. Faculty site visits ensure courses offered at the high school are the same as the classes offered on campus. As we visit your class we look for a clear presentation of the lesson and the development of the concepts with a rigor and depth of content equivalent to our on-campus courses. We also look for evidence that the teacher expects the student to complete college level work.

**Faculty Liaison: Please add additional pages as necessary when answering the questions below. Provide as much detail as possible.**

Complete visits during September 4, 2023 to April 5, 2024. Return copy of completed summary by April 12, 2024 or sooner to the CE instructor and a copy to Nicole Chodkowski, [nicolechodkowski@boisestate.edu](mailto:nicolechodkowski@boisestate.edu).

---

**Observations**

1. As you review the course syllabus: to what extent are the CEP syllabus, aims, and content representative of the on-campus course?

5. Is the course consistent with the on-campus course?      YES      NO

Please briefly summarize your visit. In what ways is the course you observed equivalent to the on-campus course?

If the course is not consistent with the on-campus course, then plan a follow up meeting to align content where needed and attach a summary of updates to this summary report for record keeping.
