

**BOISE STATE UNIVERSITY**  
**DEPARTMENT OF GEOSCIENCES**

--

Applicant name:

Degree program:

1. Describe key technical, professional, or personal strengths that will help you succeed in your graduate program. [1500 character limit]

Paste or type response here...

2. Describe areas you would like to improve while in graduate school at Boise State. [1500 character limit]

Paste or type response here...

3. How have your previous experiences, both in and out of the academic context, prepared you to succeed as a graduate student in Boise State's Geoscience graduate programs? [1500 character limit]

Paste or type response here...

4. What are your professional goals and how will graduate training at Boise State prepare you to achieve them? [1500 character limit]

Paste or type response here...

5. Describe a situation in your past in which you encountered adversity. What did you learn in navigating that circumstance that will help you succeed in graduate school? [2000 character limit]

Paste or type response here...

6. What experiences outside of the classroom have helped you gain interest in and knowledge of the Earth and environmental sciences? [1500 character limit]

Paste or type response here...

7. What accomplishments have you achieved outside of academics that bring you pride? [1000 character limit]

Paste or type response here...

8. How and from whom do you seek professional advice, mentoring, and help? [1000 character limit]

Paste or type response here...

**Faculty Interest Sheet: Please check the interest box for at least 2 potential faculty advisors.**
