

HOW TO GET ONLINE

Great news! Internet is active in your apartment when you move in.

SET UP YOUR INTERNET

- 1** Locate the WhiteSky Wi-Fi network for your property (usually labeled “WhiteSky-Property Name”) or your unit (usually labeled “Whitesky-Unit Number”).
- 2** Connect to the network using the passkey that was provided to you by your leasing office. This may be located in your move-in packet or email.
- 3** Repeat the steps above for each device that you would like to connect using your passkey.
- 4** If you did not receive a passkey, please contact our support team or your leasing office for assistance.
