\*No more than six elective credits of SOC may be applied toward the minor.

# LABOR STUDIES MINOR

**BOISE STATE UNIVERSITY**

COLLEGE OF ARTS AND SCIENCES

Department of Sociology

# WHAT IS IT?

A multidisciplinary program, the Labor Studies Minor examines the role of work in society. Labor is understood as a social practice that undergoes historical development, and that shapes and is shaped by other social institutions.

# WHY LABOR STUDIES?

Labor is an economic phenomenon, and workers and labor organizations play a role in politics and in the management of many workplaces. Labor, paid and unpaid, is a key feature of family life, and segregated labor markets are central to systems of ethnic and gender inequality.

# BEYOND THE MAJOR

Add value to your other degrees, minors and certificates by becoming a more effective participant in the workplace and in civic affairs, and more appreciative of the centrality of work in our lives, our communities and our relationships.

*be better prepared for any  
role in any workplace*
